

## **DUTY REDUCTION**

If you're looking to reduce the costs associated with customs duties in different areas, there are several strategies you can employ. Taking a proactive approach and finding the best solution for your particular situation can help you avoid these fees altogether. Duty Reduction aims to help you navigate the complex world of customs regulations and minimize your financial burden. By working with experts in this field, you can develop a customized plan that fits your needs and helps you save money over time.

## **DIFFERENT AVENUES TO EXPLORE**

Here are some different approaches you can take when looking to reduce the duties on your products:

- USMCA
- Japan Trade Agreement
- Tariff Classification
- Tariff Engineering
- Special Classification Provisions
- Section 232 Exclusions

## **SERVICES WE PROVIDE**

Our team will perform a comprehensive evaluation of your product, meticulously examine your documents, and assess your qualifications for any of the strategies mentioned. We will then assist you in navigating the process of obtaining these reductions on your products. Our job is to identify the areas and methods by which you can achieve the greatest savings on your shipments.

Scarborough Consulting supplies customized solutions with attention to detail to ensure that you will save money and time while experiencing a smooth and hassle-free process. Don't let high duty fees hold your business back, contact Scarborough Consulting today for your duty reduction solutions.
